

PRESS RELEASE

Small Lincolnshire family company help Northamptonshire Police scoop top Health & Safety Award at National Awards Wednesday 6th April at NEC Birmingham

BAUER Consultants Ltd from Kirkby on Bain near Woodhall Spa spent the COVID years developing an entirely new approach to disinfection and hygiene with a unique Biocide which combines both a cleaning and release agent with a fully certified Biocide Naturama to deliver amazing results.

Trialled by UK Police in a scientific results-based force-wide hygiene assessment it was found that Naturama passed every challenge and was then adopted by Northamptonshire Police throughout all Divisions, with other forces interested.

The Northamptonshire Biosecurity programme was so unique and effective that both the Force and its Health & Safety Manager Richard Bowden were nominated in **four** out of seven Health & Safety Award categories at the annual Safety & Health Excellence Awards, **winning the prestigious Alan McArthur Unsung Hero Award**

NORTHAMPTONSHIRE POLICE NOMINATED FOR

- HEALTH & SAFETY MANAGER OF THE YEAR AWARD
- THE ALAN McARTHUR UNSUNG HERO AWARD
- RISING STAR OF THE YEAR AWARD
- CAMPAIGN OF THE YEAR AWARD

AWARDS EVENT WEDNESDAY 6TH APRIL 2022
AT THE NEC ANNUAL HEALTH & SAFETY EXHIBITION

NATURAMA BIOCIDE ORGANISATION BIOSECURITY

SHE Health Safety Awards 2022

NATURAMA is an entirely new concept in corporate and organisation hygiene created as a result of many lessons learnt from COVID disinfection, poorly performing products and cleaning practices that never passed audit as no such procedures existed until proposed under the NATURAMA Biosecurity plan.

NATURAMA took over 18 months science and research to finally mid-December 2021 NATURAMA Biocide achieved all necessary Biocide test certifications BS EN 1276, BS EN 14476 and the top-tier and exceptionally demanding EN 13697, which few biocide products can achieve. NATURAMA is fully UK Article 95 compliant with full details and SDS's on our website www.greenppe.org

The web site is a technical and information resource to explain to potential users the huge hygiene advantages NATURAMA offers, meeting all your corporate Planet compliance objectives as well as climate-change and recycling. Even religious observances are fully met as NATURAMA is Vegan, Kosher, Halal as totally non-alcohol.

NATURAMA RELIGIOUS COMPLIANCE

Launched officially late December 2021 NATURAMA went straight into major user trials with the UK police the first to adopt, after extensive scientific assessment against existing products and procedures. NATURAMA dominated every single head-to-head trial offering better value for money, longer on-surface efficacy and zero ATP scores which **few other competitive products can achieve.**

Bauer Consultants will gladly loan you Hygiena ATP swab testing equipment to verify this yourself against existing products you use today or are considering.

NO NEED FOR ANY PPE

The new NATURAMA Organisation Biosecurity programme was created as a joint concept between Naturama and Northamptonshire Police who conducted extensive analysis into organisation hygiene as a post-COVID long-term commitment to protect both its staff and the public from avoiding and communicable diseases and health threats.

These are pre-COVID threats commonly afflicting public service and first-responders such as Hepatitis, C-Diff, AIDS, MRSA and similar, all resulting in staff lost in recovery, which has both a substantial administrative and capability impact, as well as budgetary.

COVID brought heightened awareness to staff hygiene the police wish to see continue many years hence. Contract cleaning using Naturama instead of lesser effective products and procedures ensures a safe working environment which is regularly audited by ATP swab testing to ensure standards are maintained. Achieving Organisation Biosecurity is not just product-related but is a holistic approach to effective hygiene.

Northamptonshire Police were short-listed for four prestigious Health & Safety Awards at the annual dinner night 6th April 2022 alongside the Annual Health & Safety Exhibition at the NEC in Birmingham. See - <https://www.healthandsafetysafevent.com/>

NATURAMA is exceptionally proud to be the primary supplier to the Northamptonshire project and look forward to the outcome of this event in April.

Please refer to our website for detailed product and capability information

www.greenppe.org
www.bauer-consultants.com

NATURAMA is a 'game-changing' product and Biosecurity concept. We will gladly give you free test samples and swab testing equipment to scientifically determine NATURAMA's capabilities at competitive prices, as the product is manufactured in our UK blending and filling plant in Lincolnshire

NATURAMA has evolved a unique Use, **Re-Use**, **ReFill** and **Recycle** programme minimising landfill and maximising product retention with added full 'cradle-to-grave' environmental responsibility which few other product manufacturers offers.

The UK Police totally adopted this concept as explained on our website.

No other UK or EU biocide or disinfectant product manufacturer or reseller holds a full Environment Agency Waste Recycling Licence.
