

The importance of Religious Compliance in Infection Control and Hygiene countermeasures

NATURAMA is a specially developed and fully tested Hospital Grade Broad-Spectrum Cleaner and Sanitising Agent that fully meets multi-ethnic religious concerns when used in places of worship, public areas, and the home. Blended from naturally occurring minerals Naturama is an entirely safe, natural, and bio-degradable product entirely free from alcohols, harsh chemicals, and any religiously sensitive additives, as Naturama is both Vegan and Earth-Friendly.

BAUER CONSULTANTS
PROUDLY SUPPORTING THOSE WHO SERVE.

Ideal for hand and skin applications and onto all hard and soft surfaces including inside buildings and large areas. Following application there is latent protection against viral, bacteria and other hygiene threats.

There is no odour as Naturama is an odour and smell dispersal medium which makes application safe and easy to achieve without the need to wear excessive PPE. Staff applying and maintaining an area, the public and those who must use areas pre-treated, are not inconvenienced or adversely affected.

NATURAMA has been extensively tested both in the United Kingdom and USA achieving US Environmental Protection SAFER CHOICE Certification as well as numerous other classifications as well as being Vegan, Halal and Kosher compliant due to its entirely natural composition.

For use in high-risk applications Naturama is fully laboratory tested against the demanding BS EN 14476 Standard, BS EN 13697 & EN 1276 with Naturama probably the **only** totally natural mineral product available on the market today that can claim this full laboratory certification. NATURAMA is fully Registered under BPR Article 95 with UK HSE.

NATURAMA BIOCIDES IS FULLY COMPLIANT UNDER ARTICLE 95 OF THE EU BIOCIDES REGULATION 528/2012 (EU BPR)
